AMENDED AND SUPPLEMENTAL COMPLAINT

1. The United States of America, by the authority of the Attorney General of the United States and through the undersigned attorneys, acting at the request of the Administrator of the United States Environmental Protection Agency (“EPA”), files this Amended and Supplemental Complaint (“Amended Complaint”) and alleges as follows:

NATURE OF ACTION

2. This is a civil action brought pursuant to Sections 309(b) and (d) of the Clean Water Act (the “Act”), 33 U.S.C. §§ 1319(b) and (d), for injunctive relief and civil penalties against the Puerto Rico Aqueduct and Sewer Authority (“PRASA”) and Compañia de Aguas de Puerto Rico (“Compañia de Aguas”) (collectively, “defendants”) and the Commonwealth of Puerto Rico, who is being joined as a defendant in this action pursuant to Section 309(e) of the Act, 33 U.S.C. § 1319(e). Specifically, since at least 1997 (the “relevant time”), the defendants have discharged pollutants in violation of Section 301(a) of the Act, 33

U.S.C. §1311(a), and have violated and continue to violate certain terms and conditions of National Pollutant Discharge Elimination System (“NPDES”) permits issued to PRASA by EPA pursuant to Section 402 of the Act, 33 U.S.C. §1342, for at least 58 of PRASA’s waste water treatment plants (“WWTPs”), the conditions and limitations of which apply to the pump stations and collection systems appurtenant to these 58 WWTPs.

JURISDICTION AND VENUE

3. This Court has jurisdiction over the subject matter of this action and the parties pursuant to Section 309(b) of the Act, 33 U.S.C. §1319(b), and 28 U.S.C. §§1331, 1345 and 1355.

4. Venue is proper in this judicial district pursuant to Section 309(b) of the Act, 33 U.S.C. §1319(b), and 28 U.S.C. §§1391(b) and 1395 because PRASA is located, and the alleged violations occurred, in this judicial district, and Compañía de Aguas, as an operator of PRASA’s facilities, does business in this judicial district.

PARTIES

5. Plaintiff is the United of America, acting by the authority of the Attorney General and on behalf of the Administrator of the EPA.

6. Defendant PRASA is a public corporation and an autonomous governmental instrumentality of the Commonwealth of Puerto Rico, organized and existing under the Laws of Puerto Rico, P.R. Ann., title XXII, §144, 1983, and is a “municipality” within the meaning of Section 502(4) of the Act, 33 U.S.C. §1362(4). PRASA is also “person” within the meaning of the Section 502(5) of the Act. PRASA owns and operates the WWTPs and pump station and collection system facilities appurtenant thereto at which the Clean Water Act

violations alleged in this Complaint occurred and continue to occur.

7. The Commonwealth of Puerto Rico is defined as a “State” pursuant to Section 502(3) of the Act, 33 U.S.C. §1362(3), and is joined as a defendant in this action pursuant to Section 309(e) of the Act, 33 U.S.C. §1319(e). Notice of the commencement of this action has been provided to the Commonwealth of Puerto Rico pursuant to Section 309 of the Act, 33 U.S.C. §1319.

8. Compañía de Aguas, formerly known as PS Group of Puerto Rico (“PSG”), is a corporation organized under the laws of the Commonwealth of Puerto Rico, and is an operator of PRASA’s facilities. Compañía de Aguas is also “person” within the meaning of the Section 502(5) of the Act.

9. Pursuant to a contract dated May 26, 1995, PRASA and PSG entered into an Agreement for the Operation, Management, Repair and Maintenance of an Aqueduct, Sewer, and Customer Services System. On information and belief, Compañía de Aguas is the legal successor to PSG.

10. Puerto Rico Law No. 328 of December 28, 1998, amended PRASA’s Enabling Act, and granted PRASA’s Governing Board the authority to delegate to one or more private operators the management, operation, repair and maintenance of all PRASA systems, including the management of the employees of PRASA, and to delegate to a Director of Operations named by the private operator, all of the functions and duties of PRASA’s Executive Director.

11. Pursuant to Law No. 328, PRASA and Compañía de Aguas amended its

contract effective on March 1, 1999, to extend until August 31, 2001, and thereafter, on information and belief, through March 2002. The amendment provided for the delegation to Compañia de Aguas of the operation, management, repair, and maintenance of the systems which were not then under contract and to delegate to Compañia de Aguas' Director of Operations all of the functions and duties of PRASA's Executive Director, and to provide "uninterrupted operation, management, repair and maintenance of the Systems in accordance with this Agreement, Applicable Law, and all Permits," as set forth in the Second Amended and Restated Contract at Art. IV, § 4.1.1(a).

12. Pursuant to the Second Amended and Restated Contract at Art. IV, § 4.3, the Director of Operations to whom the duties and functions of PRASA's Executive Director are delegated shall be an employee of Compagnie Generale des Eaux-SAHIDE, a French corporation, or Aqua Alliance, a Delaware corporation, grandparent and parent corporations of Compañia de Aguas, respectively. It is further provided in said Contract that "[t]he Director of Operations shall be the chief executive officer of PRASA, shall be responsible for carrying out the general policies of PRASA's Governing Board and for the general supervision of the operations of the Systems, and shall owe a fiduciary duty to PRASA's Governing Board."

13. PRASA is the named permittee for each of the NPDES permits governing the WWTPs and appurtenances at which the violations herein are alleged; however Compañia de Aguas is a person whose joinder will not deprive the court of jurisdiction over the subject matter of the action and who, pursuant to Federal Rule of Civil Procedure 19(a), must be joined as a defendant in this action in order to provide complete relief to the plaintiff.

14. At all times relevant to the violations alleged in this Complaint, Compañia

de Aguas and/or PRASA operated the facilities at which the violations alleged herein occurred and are occurring.

15. PRASA divides the island of Puerto Rico into four regions: Metro, East, North, and Southwest. The allegations in the Original Complaint, filed on May 30, 2001, were organized by region. The allegations in this Amended Complaint are organized by NPDES permit number, as set forth in Attachments 1, 2 and 3 hereto.

STATUTORY AND REGULATORY BACKGROUND

16. Section 301(a) of the Act, 33 U.S.C. §1311(a), prohibits the discharge of any pollutants except in compliance with the requirements of that section and as authorized by, and in compliance with, a NPDES permit issued pursuant to the permit issuing authority provided for in Section 402 of the Act, 33 U.S.C. §1342.

17. Section 502 of the Act, 33 U.S.C. § 1362, defines the term “discharge of a pollutant” as: “[A]ny addition of any pollutant to navigable waters from any point source”

18. Section 502 of the Act, 33 U.S.C. § 1362, defines the term “pollutant” to include sewage, biological materials, and municipal waste.

19. Section 502 of the Act, 33 U.S.C. § 1362, defines the term “navigable waters” as the waters of the United States, including its territorial seas.

20. Part 122 of the Code of Federal Regulations, promulgated under the Act to regulate the NPDES Permit program, defines “waters of the United States,” in relevant part, to include “[a]ll waters which are currently used in the past, or may be susceptible to use in interstate or foreign commerce, including all waters which are subject to the ebb and flow of the tide,” and tributaries to such waters. 40 CFR § 122.2(a) & (e).

21. Section 502 of the Act, 33 U.S.C. § 1362, defines the term “point source” as any discernible, confined and discrete conveyance, including, but not limited to, any ditch, channel, tunnel, conduit, well, or discrete fissure from which pollutants may be discharged.

22. Under Section 402(a) of the Act, 33 U.S.C. § 1342(a), the Administrator of the EPA (“Administrator”) may issue a NPDES permit that authorizes the discharge of pollutants into waters of the United States, provided that all discharges meet the applicable requirements of Section 301 of the Act, 33 U.S.C. § 1311, or such other conditions as the Administrator determines are necessary to carry out the provisions of the Act. Typically such permits include effluent limitations, outfall coordinates, monitoring and reporting requirements, as well as operation and maintenance requirements.

23. Pursuant to 40 CFR § 122.41(e), a standard condition in all NPDES permits governing each facility at which a violation is alleged herein states that the permittee shall at all times properly operate and maintain all facilities and systems of treatment and control (and related appurtenances) which are installed or used by the permittee to achieve compliance with the conditions of the permit.

24. Pursuant to 40 CFR § 122.41(l)(6) and (m)(3)(ii), a standard condition in all NPDES permits governing each facility at which a violation is alleged herein requires that the permittee shall report any noncompliance which may endanger health or the environment, such notice to be provided orally within 24 hours from the time the permittee became aware of the circumstances, and submitted in writing within five days of the time the permittee became aware of the circumstances.

25. Sections 309(a)(3), (b) and (d) of the Act, 33 U.S.C. §§ 1319(a)(3), (b)

and

(d), authorize the Administrator to commence a civil action for injunctive relief and for civil penalties for each violation of Section 301 of the Act, 33 U.S.C. § 1311, or any permit condition or limitation implementing, *inter alia*, Section 301 of the Act, 33 U.S.C. § 1311, and contained in a permit issued under Section 402 of the Act, 33 U.S.C. § 1342.

OPERATION AND MAINTENANCE VIOLATIONS

26. PRASA owns and the defendants operate each of the pump stations listed (by pump station name, location, area, PRASA Region, governing NPDES permit number, and WWTP to which it is appurtenant) in Attachment 1 to this Amended Complaint.

27. Each pump station listed in Attachment 1 to this Amended Complaint is a “related appurtenance,” within the meaning of 40 CFR § 122.41(e), to the WWTP to which such pump station is tributary, and is required to be operated in accordance with and so as to achieve compliance with each condition and limitation of the NPDES permit issued under Section 402 of the Act, 33 U.S.C. § 1342, for that WWTP, as identified in Attachment 1 to this Amended Complaint.

28. Based on EPA inspections and/or reports to EPA by PRASA, during the relevant time period, each pump station listed in Attachment 1 to this Amended Complaint has discharged raw sewage, including but not limited to fecal coliform, oil and grease, metals and other “pollutants” within the meaning of Section 502(6) of the Act, 33 U.S.C. § 1362 (6), at a location not authorized by the applicable NPDES permit for that pump station, in violation of a condition or limitation of such NPDES permit, and therefore, in violation of Section 402 of the Act, 33 U.S.C. § 1342.

29. Based on EPA inspections and/or reports to EPA by PRASA, the discharge(s) of pollutants from each pump station listed in Attachment 1 to this Amended Complaint as alleged herein is the result of the defendants' failure properly to operate and maintain each such pump station so as to achieve compliance with a condition or limitation of the applicable NPDES permit for that pump station, as required by 40 CFR § 122.41(e), in violation of Section 402 of the Act.

UNLAWFUL DISCHARGE VIOLATIONS

30. PRASA owns and the defendants operate each of the pump stations listed (by pump station name, location, body of water impacted, PRASA Region, governing NPDES permit number, and WWTP to which it is appurtenant) in Attachment 2 to this Amended Complaint.

31. Each pump station listed in Attachment 2 to this Amended Complaint is a "related appurtenance," within the meaning of 40 CFR § 122.41(e), to the WWTP to which such pump station is tributary, and is required to be operated in accordance with and so as to achieve compliance with each condition and limitation of the NPDES permit issued under Section 402 of the Act, 33 U.S.C. § 1342, for that WWTP, as identified in Attachment 2 to this Amended Complaint.

32. Upon information and belief, and based on EPA inspections and/or reports to EPA by PRASA, during the relevant time period, each pump station listed in Attachment 2 to this Amended Complaint has discharged from a point source raw sewage, including but not limited to fecal coliform, oil and grease, metals and other "pollutants" within the meaning of Section 502(6) of the Act, 33 U.S.C. § 1362 (6), into navigable waters or waters of the United

States, in violation of Section 301(a) of the Act, 33 U.S.C. § 1311(a).

33. None of the discharges from any of the pump stations listed in Attachment 2 to this Amended Complaint comply with any of the exceptions provided in Section 301(a) of the Act, 33 U.S.C. § 1311(a), and no NPDES permits have been issued under Section 402 of the Act, 33 U.S.C. § 1142, authorizing discharges of pollutants from any of the pump stations listed in Attachment 2 to this Amended Complaint.

34. Based on EPA inspections and/or reports to EPA by PRASA, the discharges of pollutants from each pump station listed in Attachment 2 to this Amended Complaint, as alleged in the preceding paragraph, is the result of the defendants' failure to properly operate and maintain each such pump station so as to achieve compliance with a condition or limitation of the applicable NPDES permit for that pump station, as required by 40 CFR § 122.41(e), in violation of Section 402 of the Act, 33 U.S.C. § 1342, 40 CFR § 122.41(e).

REPORTING VIOLATIONS

35. PRASA owns and the defendants operate each of the pump stations listed (by pump station name, location, area, PRASA Region, governing NPDES permit number, and WWTP to which it is appurtenant) in Attachment 3 to this Amended Complaint.

36. Each pump station listed in Attachment 3 to this Amended Complaint is a "related appurtenance," within the meaning of 40 CFR § 122.41(e), to the WWTP to which such pump station is tributary, and is required to be operated in accordance with and so as to achieve compliance with each condition and limitation of the NPDES permit issued under Section 402 of the Act, 33 U.S.C. § 1342, for that WWTP, as identified in Attachment 3 to this Amended Complaint.

37. Based on EPA inspections and/or reports to EPA by PRASA, during the relevant time period, each pump station listed in Attachment 3 to this Amended Complaint has discharged raw sewage, including but not limited to fecal coliform, oil and grease, metals and other “pollutants” within the meaning of Section 502(6) of the Act, 33 U.S.C. § 1362 (6), at a location other than that authorized by the applicable NPDES permit for that pump station, in violation of a condition or limitation of that NPDES permit, and therefore, in violation of Section 402 of the Act, 33 U.S.C. § 1342.

38. The discharge of pollutants from each pump station listed in Attachment 3 at a location other than that authorized by the applicable NPDES permit for that pump station, in violation of a condition or limitation of that NPDES permit and thus of Section 402 of the Act, 33 U.S.C. § 1342, constitutes an act of “noncompliance which may endanger health or the environment” within the meaning of 40 CFR § 122.41(l)(6), thereby requiring defendants to provide oral notice within 24 hours from the time the defendants became aware of the circumstances, and to submit notice in writing within five days of the time the defendants became aware of the circumstances.

39. From each pump station listed in Attachment 3, there has been at least one noncompliant discharge of pollutants during the relevant time period for which proper notice, as required by 40 CFR § 122.41(l)(6) and (m)(3)(ii) and a condition or limitation of the applicable NPDES permit for that pump station, was not provided, in violation of Section 402 of the Act, 33 U.S.C. § 1342.

FIRST CLAIM FOR RELIEF

40. Paragraphs 1 through 39 are realleged and incorporated herein.

41. For each pump station listed in Attachment 1 to this Amended Complaint, each day of discharge of a pollutant from a location other than that authorized by the applicable NPDES permit for that pump station, in violation of a condition or limitation of such NPDES permit, is the result of the defendants' failure properly to operate and maintain that pump station so as to achieve compliance with the applicable NPDES permit, as required by 40 CFR § 122.41(e), and is a violation of Section 402 of the Act, 33 U.S.C. § 1342. Pursuant to Section 309(d) of the Act, 33 U.S.C. § 1319(d), the defendants are liable for the assessment of civil penalties not to exceed twenty-five thousand dollars (\$25,000) per day for each such violation occurring on or before January 30, 1997 and, pursuant to the Debt Collection Improvement Act of 1996 and 40 CFR Part 19, twenty-seven thousand five hundred dollars (\$27,500) per day for each such violation occurring after January 30, 1997.

SECOND CLAIM FOR RELIEF

42. Paragraphs 1 through 41 are realleged and incorporated herein.

43. For each pump station listed in Attachment 2 to this Amended Complaint, each day of discharge of a pollutant into navigable waters or waters of the United States from any point source, except as in compliance with the applicable NPDES permit for that pump station as required by Section 402 of the Act, 33 U.S.C. § 1342, is a violation of Section 301 of the Act, 33 U.S.C. § 1311. Pursuant to Section 309(d) of the Act, 33 U.S.C. § 1319(d), the defendants are liable for the assessment of civil penalties not to exceed twenty-five thousand dollars (\$25,000) per day for each such violation occurring on or before January 30, 1997 and,

pursuant to the Debt Collection Improvement Act of 1996 and 40 CFR Part 19, twenty-seven thousand five hundred dollars (\$27,500) per day for each such violation occurring after January 30, 1997.

THIRD CLAIM FOR RELIEF

44. Paragraphs 1 through 43 are realleged and incorporated herein.

45. For each pump station listed in Attachment 3 to this Amended Complaint, each day of discharge of a pollutant in violation of a condition or limitation of the applicable NPDES permit for that pump station, in violation of Section 402 of the Act, 33 U.S.C. § 1342, including a discharge of a pollutant into navigable waters or waters of the United States in violation of Section 301 of the Act, 33 U.S.C. § 1311, which may endanger health or the environment and of which the defendants failed to provide oral notice to EPA within 24 hours from the time the defendants became aware of the circumstances, and to submit notice in writing within five days of the time the defendants became aware of the circumstances, is a violation of Section 402 of the Act, 33 U.S.C. § 1342. Pursuant to Section 309(d) of the Act, 33 U.S.C. § 1319(d), the defendants are liable for the assessment of civil penalties not to exceed twenty-five thousand dollars (\$25,000) per day for each such violation occurring on or before January 30, 1997 and, pursuant to the Debt Collection Improvement Act of 1996 and 40 CFR Part 19, twenty-seven thousand five hundred dollars (\$27,500) per day for each such violation occurring after January 30, 1997.

FOURTH CLAIM FOR RELIEF

46. Paragraphs 1 through 45 are realleged and incorporated herein.

47. Upon information and belief, the defendants will continue to fail to

properly operate and maintain PRASA's pump stations so as to achieve compliance with the applicable NPDES permit for each pump station; will continue to discharge pollutants from PRASA's pump stations at locations other than as authorized by the applicable NPDES permit for each pump station, in violation of a condition or limitation of such NPDES permits; will continue to discharge pollutants into navigable waters or waters of the United States; and will continue to fail to timely report NPDES permit violations which may endanger health or the environment, in violation of Sections 301(a) and 402 of the Clean Water Act, 33 U.S.C. §§ 1311 and 1342. Pursuant to Section 309(b) of the Act 33 U.S.C. § 1319(b), the Administrator is entitled to seek injunctive relief to secure the defendants' compliance with the Act.

PRAYER FOR RELIEF

WHEREFORE, the United States of America prays that:

1. The defendants be assessed, pursuant to Section 309(d) of the Act, 33 U.S.C. § 1319 (d), for each operation and maintenance-related violation of Section 402 of the Act, 33 U.S.C. § 1342 at each pump station listed in Attachment 1 to this Amended Complaint, as alleged in paragraphs 26 through 29 above, a civil penalty of twenty-five thousand dollars (\$25,000) per day for each violation occurring on or before January 30, 1997 and, pursuant to the Debt Collection Improvement Act of 1996 and 40 CFR Part 19, twenty-seven thousand five hundred dollars (\$27,500) per day for each such violation occurring after January 30, 1997, up to the date of judgment herein.

2. The defendants be assessed, pursuant to Section 309(d) of the Act, 33 U.S.C. § 1319 (d), for each discharge of a pollutant from a point source into navigable waters or waters of the United States, in violation of Section 301(a) of the Act, 33 U.S.C. §§ 1311(a), at

each pump station listed in Attachment 2 to this Amended Complaint, as alleged in paragraphs 30 through 34 above, a civil penalty of twenty-five thousand dollars (\$25,000) per day for each violation occurring on or before January 30, 1997 and, pursuant to the Debt Collection Improvement Act of 1996 and 40 CFR Part 19, twenty-seven thousand five hundred dollars (\$27,500) per day for each such violation occurring after January 30, 1997, up to the date of judgment herein.

3. The defendants be assessed, pursuant to Section 309(d) of the Act, 33 U.S.C. § 1319 (d), for each failure timely to provide notice to EPA of a violation of Sections 301(a) and/or 402 of the Act, 33 U.S.C. §§ 1311(a) and/or 1342, at each pump station listed in Attachment 3 to this Amended Complaint, as alleged in paragraphs 35 through 39 above, a civil penalty of twenty-five thousand dollars (\$25,000) per day for each violation occurring on or before January 30, 1997 and, pursuant to the Debt Collection Improvement Act of 1996 and 40 CFR Part 19, twenty-seven thousand five hundred dollars (\$27,500) per day for each such violation occurring after January 30, 1997, up to the date of judgment herein.

4. The defendants be permanently enjoined, pursuant to Section 309(b) of the Act, 33 U.S.C. § 1319 (b), from any and all future violations of the Act and from discharges of pollutants except as authorized by a permit issued under Section 402 of the Act, 33 U.S.C. § 1342.

5. The defendants be ordered (a) to immediately develop and implement a preventative maintenance/operation and maintenance plan for all pump stations owned and/or operated by the defendants in Puerto Rico to remedy the defendants' failures to operate and maintain their pump stations in accordance with the terms of PRASA's NPDES permits, the

Clean Water Act and regulations promulgated thereunder; and (b) to bring each of PRASA's pump station facilities into immediate compliance with the terms and conditions of the applicable NPDES permits, the Clean Water Act and regulations promulgated thereunder.

6. The defendants be ordered to reimburse the United States for the costs and disbursements of this action.

7. This Court grant the United States such other and further relief as it deems just and proper.

Respectfully submitted,
